

Company Name	Position Title 1	Full Time or Part Time	Position Summary
M&L Electrical	Electrical Apprentice	Full Time	<p>As an electrical apprentice for M&L Electrical, our most important requirement is being a person who strives to maintain and uphold the personal traits of our bedrock foundation and possesses the qualities of our core values.</p> <p>After working on our personal characteristics, the next job requirements include being a student of the trade with tasks including and not limited to:</p> <ul style="list-style-type: none"> • Assisting electricians and higher level apprentices with the installation of electrical components and equipment. • Learning names of material and the different applications for each type of material. • Organizing and maintaining a clean working area that serves the purpose of efficiency, safety and overall job site appearance. <p>During our apprenticeship, classes are held once per quarter (every 3 months) for a 40 hour work week. During this time you will be paid your hourly wage including per diem if you are not local to our Bowling Green office.</p>

			<p>Training focus will be on the physics and theory behind general AC and DC electricity with a heavy focus on alternating current; standard procedures and best practices for providing a quality electrical installation in many different environments; reading and interpreting blueprints; and general safety topics. These will be a few of the items that are covered in the first year.</p>
