

Company	Sector	What they do/make
	Manufacturing	<p>Aerospace Composites Solutions (formerly Blackhawk Composites) is a comprehensive composite design and manufacturing facility focused on boosting aircraft performance and capabilities. Our services include design support, prototype creation, building, and certifying composite components. Composites are lighter, stronger, and more durable than standard aerospace and high-performance industry materials, offering opportunities for increased performance, strength, and payload while reducing maintenance costs. At Aerospace Composites Solutions, we deliver diverse solutions tailored to your needs while our full in-house services and cost-saving techniques give you the competitive advantage. If it's increased performance you seek, we can help.</p>
	Manufacturing	<p>Bendix Commercial Vehicle Systems designs, develops, and supplies active safety technologies, energy management solutions, and air brake charging, and control systems and components under the Bendix® brand name for medium- and heavy-duty trucks, tractors, trailers, buses, and other commercial vehicles throughout North America.</p>
	Manufacturing	<p>"BlueCotton is an accident. In 1991, two college grads were hard on their luck and trying to find a job. A business venture gone bad left them with close to 1000 t-shirts and a huge credit card bill to boot. To alleviate their cramped apartment of the surplus t-shirts and pay bills, they started selling t-shirts to fraternities and sororities at Western Kentucky University. One thing led to another, and this happy accident eventually became the real deal! We serve customers all over the world!! BlueCotton has grown into a thriving, robust company specializing in custom t-shirts and embroidery and adding more members to our family each year."</p>
