

# LESSON 4: Building Your Career Path

Now, what's next?

The Experience event showcased many exciting opportunities that lie ahead for you. Soon, you will be transitioning to high school, and it is important that you begin to think about the courses you would like to take. Take a moment to reflect on what you saw and experienced today.

### Here are some questions to think about:

1. What did you see at the event that sparked your interest?
2. Is there something that made you curious or excited?
3. What conversation(s) did you have with someone from one of the businesses at the event?
4. Are there specific industries or professions you would like to learn more about?

High schools offer various education pathways for students through Career and Technical Education (CTE). These pathways allow you to explore and learn about different careers through courses and experiences.

### To refresh your memory, here are the sectors you had the opportunity to explore today:

Sector	What does this sector do or create?
	<b>CONSTRUCTION</b> Prepares land and constructs buildings and structures as well as modification or repair of existing buildings or structures
	<b>HEALTHCARE</b> Provides goods and services to treat patients in every stage of care from prevention to cure
	<b>HOSPITALITY</b> Provides services in the areas of tourism, lodging, event planning, theme parks, restaurants and retail establishments
	<b>MANUFACTURING</b> Engages in converting raw materials through mechanical, physical or chemical transformations
	<b>PROFESSIONAL SERVICES</b> Provides a range of services to support businesses or individuals in areas such as legal, financial, design, sales, insurance and more
	<b>PUBLIC SERVICE</b> Provides services for citizens through organizations that are generally owned and operated by the government
	<b>TRANSPORTATION</b> Responsible for managing the movement of people, products and services through road, air, water and pipeline
